TIME TO BEAUTIFY.

NOW is the pyschological time to improve and beautify your home, to start lawns, to plant gardens, vines and trees. A few more days and it will be too late for another year.

Shade trees should be planted along the curb of every TORGE PUTNAM, Editor and Manager residence street, for nothing so beautifies a city as shaded avenues. They add to the attractiveness and desirability of every community and so enhance values.

Even the most desolate and forlorn shacks can be transformed by means of a few vines and shrubs, whi h cover with a graceful foliage naked walls and barren boards. A little care and a little effort is all it costs to . st. 00 make your home ten times as attractive.

In no place do roses thrive better or grow with greater perfection than in the Rogue River valley-yet there are few spots where they are more neglected. Roses are rank feeders and require fertilization and severe pruning. Tens of thousands of roses should adorn streets now not only roseless but treeless.

Medford has an abundant water supply, a fertile soil, a plentitude of sunshine, and can and should be made a veritable beauty spot. All it requires is the cooperation of every resident in improving his home. Such effort would in a few years make the city as famous for its beauty as the country is for its scenery-a fitting center for the most picturesque of valleys.

Shade trees should be under municipal control, hence securing uniformity in planting and care taking otherwise impossible to provide. A commission, interested in the subject, should be created, to serve without pay. It should be provided with funds sufficient to plant shade trees on every paved and graded street, and to care for them, prune and water them, after planting. The cost would be slight and the improvement tremendous.

EXPRESS COMPANIES HART HIT BY PARCELS POST

WASHINGTON, April 2 .- Express companies were hard hit by the par cels post according to a statement today to the interstate commerce commission by W. D. Hines, counse for the express companies. In the final arguments against the express rates proposed by the commission, he declared the companies have suffered squeiched at Gold Hill so long as a loss of about six per cent of the gross revenue and that the proposed reductions of the commission would be absolutely destructive. He also asserted the formula made rates would disturb the business conditions of large centers by forcing a readjustment of competitive business conditions. B. F.
